

Before the Church, her body was the church.

Before division, all lands and bodies were once sacred.

Reunion with the Divine Feminine template begins here.

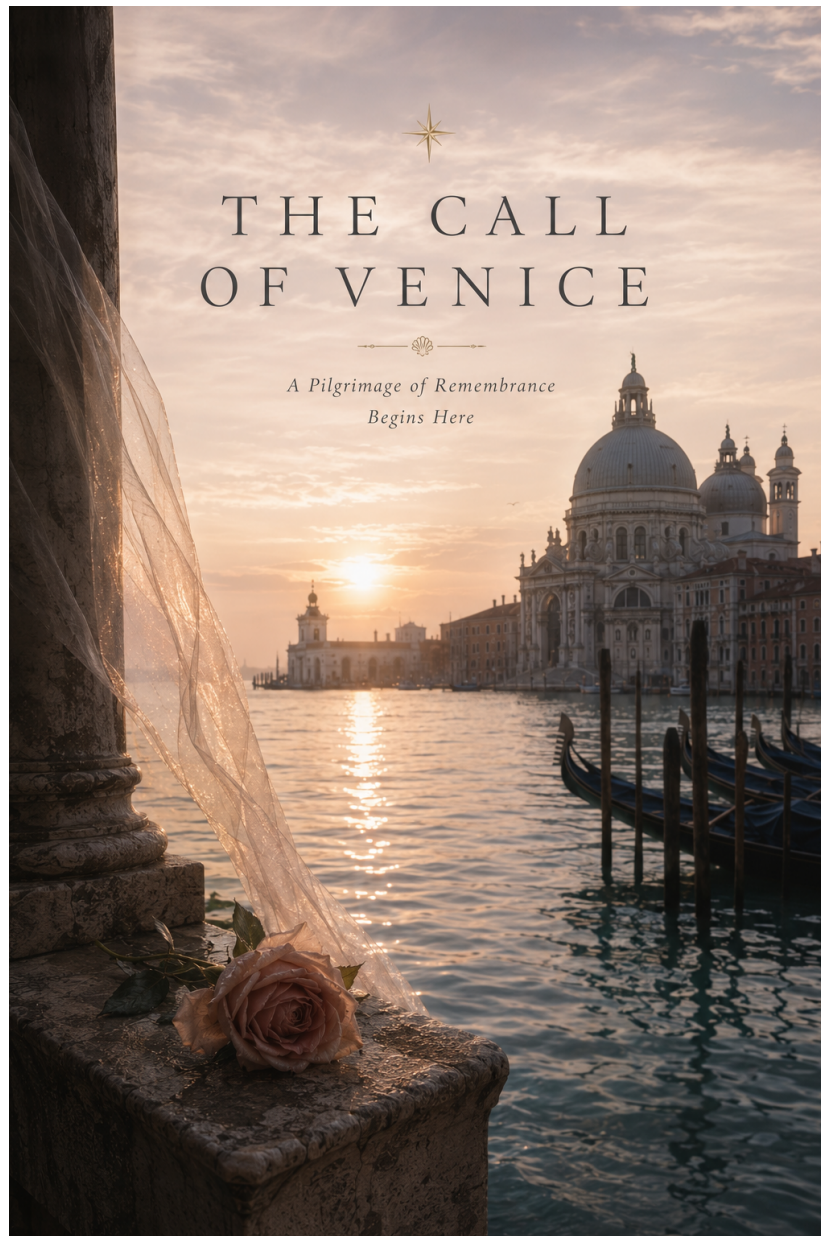

At this time of the Great Awakening, many are sensing an ancient call—a quiet remembering that something sacred has always lived within them, waiting to be awakened.

The Divine Feminine invites us home, towards the resurrection of a wisdom that has slept beneath centuries of forgetting.

Venice is one of Her great gateways.

Venice arose from the waters as a living expression of Venus—a meeting place between earth and sea, beauty and spirit, where the mysteries of the Rose have echoed through art, pilgrimage and the feminine path for centuries.

Here, through sacred ceremony, hidden sanctuaries, healing waters and the mystical rhythms of La Serenissima, we begin a pilgrimage of remembrance back to who we have always been.

During our extraordinary Venetian pilgrimage, you will:

- ✧ **Walk the hidden pathways of Mother Mary and Mary Magdalene, visiting ancient chapels, forgotten sanctuaries and sacred power places that reveal an entirely new Venice.**
- ✧ **Trace the Holy Grail traditions that once flowed through La Serenissima, uncovering the hidden history of the Order of the Rose and the feminine mysteries preserved within her canals.**

- ✧ **Journey into the ancient art of perfume, incense and sacred scent through historic apothecaries, perfume houses, museums and hidden gardens where fragrance remains a language of devotion.**
- ✧ **Perform ancient incense rituals by moonlight, rekindling ancient memories of the Venus Mystery School and Venice as meeting point for ancient alchemical guilds**
- ✧ **Be guided by the Tarot as a living Venetian oracle, opening hidden doorways into the city's symbolic consciousness and the Sibylline current of Oracles and Delphic priestesses**
- ✧ **Rediscover how these forgotten priestesses, oracles and feminine wisdom traditions flourished before Christianity, and explore how their legacy continued within the Christic story**
- ✧ **Explore the hidden feminine history of Christianity and its profound implications for our understanding of humanity's spiritual inheritance, through direct transmissions from Mary Magdalene**
- ✧ **Learn the ancient art of blessing and activating water through sacred ceremony, creating your own living holy water to continue working with long after the pilgrimage**
- ✧ **Experience private ceremonies and carefully curated encounters that reveal a Venice rarely seen by ordinary travellers**
- ✧ **Enjoy beautiful accommodation, exceptional Italian cuisine and thoughtfully chosen moments of rest, allowing beauty itself to become part of the initiation**
- ✧ **Continue your journey in the ancient Roman thermal waters of Montegrotto Terme at the historic Terme Preistoriche, where restorative mud rituals, healing waters, massage therapies, smoke ceremonies, sound and water immersions and daily sacred practice allow the body to integrate everything received in Venice**

Fed by mineral-rich thermal waters that have been revered since Roman times, this extraordinary sanctuary becomes our temple of embodiment. Each day unfolds in an unfurling, unhurried rhythm of thermal pools, healing mud therapies, restorative massage, sound immersions, sauna rituals and sacred ceremony, inviting the nervous system to soften, the heart to open and the body to recover its own innate intelligence.

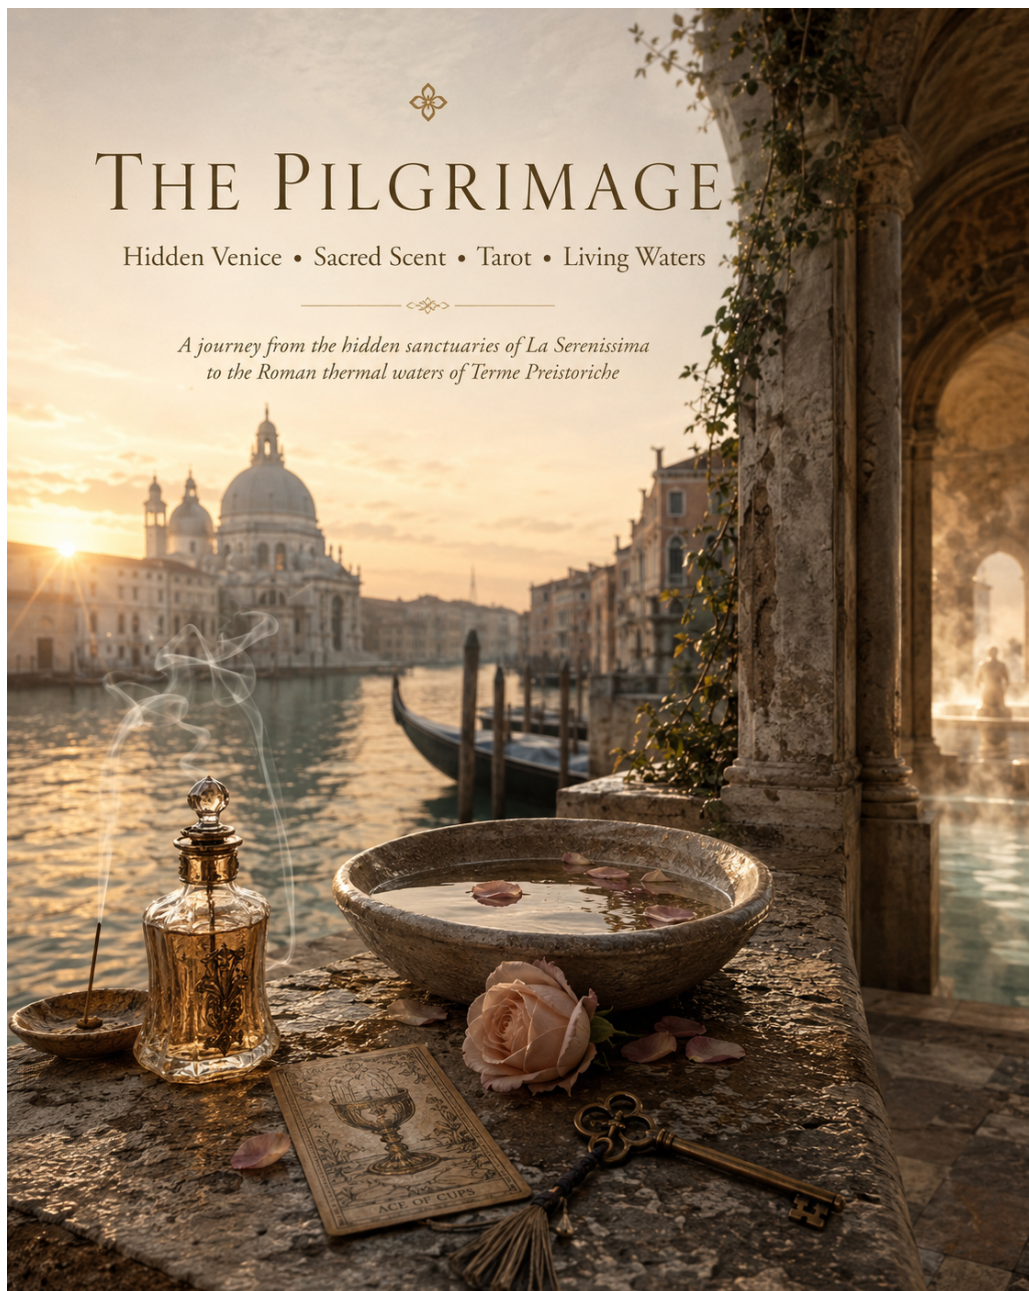

In the arms of the Goddess, luxury becomes medicine.
Beauty becomes ceremony.
Rest becomes a spiritual practice.

Surrounded by exquisite hospitality, nourishing cuisine and healing waters, you will be deeply cared for, knowing every aspect of your journey is lovingly guided. There is nothing to organise, nowhere to rush and nothing to prove—only space to receive.

Within this sanctuary, we continue our initiatory work with Mary Magdalene through her Cosmic Womb training, learning to awaken the living intelligence of the feminine body through water baptism and purification, using sacred scent and healing with the Mermaids. We explore the Five Gateways of Mermaid Consciousness as a living map of transformation, fluidity and embodied grace.

The inauguration of the Church of the Living Goddess is not a religion, but a remembrance of wholeness and holiness. A return to the ancient knowing that the body is sacred, the Earth is sacred, the waters are sacred, and that each woman carries within her a living temple through which beauty, healing and the Divine may once again flow into the world.

If you are ready to witness the world through new eyes, if your soul calls you to us, we invite you to Venice for the opening of a new chapter of the Goddess story

Created in partnership with Terme Preistoriche's award-winning wellness team, this exclusive Aurora programme blends ancient Roman thermal traditions with sacred scent, ceremony and the Cosmic Womb teachings. Many of these experiences have been designed exclusively for Aurora guests.

Every day is thoughtfully curated around the ancient healing intelligence of water.

Your experience includes:

- ✧ **Daily gourmet breakfasts, lunches and elegant evening dining featuring seasonal Italian cuisine**
- ✧ **Signature Experiences, including aromatic steam rituals, traditional hammam, body exfoliation, Pleiadian sound & water healing and immersive wellness journeys**

Throughout our stay, these extraordinary therapies become the foundation for Mary Magdalene's Cosmic Womb teachings. As the body softens and the nervous system unwinds, we work with sacred scent, water blessings, the elemental intelligence of the feminine and the Five Gateways of Mermaid Consciousness, allowing catalytic transformation to arise naturally through both ancient wisdom and deep embodiment.

An immersion into the timeless relationship between beauty, healing and the sacred, where every treatment, every meal, every ceremony and every moment of rest becomes part of the initiation.

Experience the Source waters at the most ancient Water Temple in the land.
